Software developer with over 3 years' experience in web development. Skilled in coding, debugging, testing and maintaining applications. Proven ability to create and maintain high-quality software.

Skills

PHP, Ruby, JavaScript, HTML, CSS, TypeScript, Laravel, React, Node, Vue, Next, Nuxt, Astro, Bootstrap, Bulma, Express, Ruby on Rails, MySQL, MongoDB, Firebase, Docker, PostgreSQL, Git, Gitflow, Github, Aws, CI/CD, Gitlab, Scrum, Kanban.

Experience

2022 – 2024
Desenvolvedor de Software / Hahn Software - Alemanha

Development and maintenance of a driver's license registration and management system for the German government. I actively contributed to the design, development and ongoing refinement of innovative solutions for the project. My tasks also include code reviews, testing and writing detailed documentation to ensure quality and usability.

Activities:

- Development of front-end features.
- Implementing new features
- Bug fixing
- Code reviews
- E2e testing
- Documentation
- CI/CD
- Agile workflow (Scrum, Kanban)

Educação

2024
Analise e Desenvolvimento de Sistemas / Uninassau

I learned to develop and implement software solutions to solve complex problems. I explored programming languages, data structures, algorithms and software development methodologies. In addition, I acquired skills in requirements analysis, system design, testing and software maintenance. The course also covered aspects of project management and teamwork, preparing me to work in various areas of information technology.

About me

I started my programming career in 2020 as a freelance developer, developing projects in PHP, HTML, CSS and Javascript.I'm responsible for developing Agenda Fácil, a service scheduling system for companies in any industry.I'm also always looking for new challenges and opportunities to apply my knowledge and develop my skills as a programmer.I'm currently looking for new opportunities to apply my knowledge and add to challenging projects.

Projects

Some complete projects that I have developed and are in production:

Agenda Fácil: Scheduling system for companies in various industries.
Link: Visitar
Papasand's Restaurant: Multi-user restaurant system with ordering system and trolley.
Link: Visitar
Romin Notes: Multi-user, multi-language system for managing text notes.
Link: Visitar
Romin Chats: Real-time chat system with multiple rooms.
Link: Visitar
Curvue-S: S-curve graph made in pure code and case study on the importance of the s-curve in a software company.
Link: Visitar
